SUMMARY

Results-oriented and highly motivated Computer Science graduate with a strong foundation in software development, algorithm design, and problem-solving. Currently enrolled in a Master's program in Computer Science, seeking to leverage theoretical knowledge and practical skills gained through academic projects and internships. Proficient in programming languages such as Python and C++, with a keen interest in software engineering and application development. A quick learner with excellent communication and teamwork abilities, eager to contribute to innovative projects and grow within a dynamic tech environment.

EXPERIENCE

Barista

Starbucks

📅 12/2020 - 01/2023 📍 Commerce, Tx

Worked to ensure a positive and hassle-free customer experience.

Helped to increase customer return rates by providing excellent customer service at all times.

Worked to ensure a neat and attractive sales environment, and assisted in the setup of visual displays.

Broadcast Engineer

ESPN+

📅 12/2023 - Present 📍 Commerce, Tx

Utilized a wide range of audio equipment to capture and process sound for broadcast, film, and video production.

Assembled raw footage into a cohesive, polished video for broadcast

EDUCATION

Bachelors in Science-Computer Science| 3.2 GPA

Texas A&M University-Commerce

📅 08/2019 - 12/2023 📍 Commerce, Tx

Master in Science-Computer Science

Texas A&M University-Commerce

📅 2024 - Present 📍 Commerce, Tx

SKILLS

CSS	Dart	Flutter	Git	HTML
Javascript	SQL	C++	Python	
Firebase				

PROJECTS

Tiffany King's Home-Staging

🔗 <https://www.tiffanykinghomestaging.com/>

Built a fully functional website for home staging in the Shreveport, Bossier City area. It allows for my client to get found on google and to book times to set appointments for Staging. This took skill in CSS, JavaScript, and HTML.

FISH

🔗 <https://github.com/kingct19/Fish-Application->

In this project, I built a fully functioning mobile application with Flutter using the language Dart and also using Google Firebase for backend data. The app allows for companies who do not have a proper clock-in system to pick up this app and keep track of their employee hours.

Onyx Solar

I built a functional website for a growing solar panel business in Houston, TX.

Git Hub Projects

🔗 <https://github.com/kingct19>

Projects I have done over the years of my studies.
