## About Me

- Current student working toward my Bachelor in Computer Science and looking for an opportunity to begin my career in the field of Computer Science. Capable of identifying and quickly closing any knowledge gaps to offer value to my employer and team.
- I have 3 years of Computer science studies under my belt. I have worked on a few development project, a mobile application for tracking employee clock in times. I also worked on a online web-page too.
- Very Skill with front-end development, have a strong grounding with HTML&CSS and JavaScript and also Python.
- Have good experience in creating mobile applications with Flutter
- Great at problem solving and learning
- I am also a Division 1 Track & Field athlete. Everyday I am willing to put in hard work to learn and achieve my goals to become a better person.

## Employment History

### kennel technician, Kimbrough Animal Hospital, Longview

JUNE 2021 – JUNE 2021

- Protected animal health with proper maintenance of kennel areas and exercise yards.
- Identified medical issues quickly through continuous monitoring of animals under care.
- Met animals' nutritional needs with scheduled feedings and proper diets.

### Barista, Starbucks, Commerce

DECEMBER 2021

- Worked to ensure a positive and hassle-free customer experience.
- Helped to increase customer return rates by providing excellent customer service at all times.
- Worked to ensure a neat and attractive sales environment, and assisted in the setup of visual displays.

Web Programming And Interface, Tamuc

Digital Forensics, Tamuc

## Extra-curricular activities

College Track & Field, Texas A&M-Commerce, Commerce

AUGUST 2019 — DECEMBER 2024

## Projects

### Tiffany King HomeStaging

Built a fully function Website for home staging in the Shreveport, Bossier City area. It allows for my client to get found on google and to book times to set appointments for Staging. This took skill in CSS, JavaScript, and HTML.

### FISH

In this project i built a fully functioning mobile application with Flutter using the language Dart. The app allows for companies who do not have a proper clock in system to pick up this app and keep track of their employee hours.

### Onyx Solar

I built a functional website for a growing solar panel business in houston tx.
